

Top 100 Products

Performance, innovation, aesthetics, and even green reflect this year's top products, as selected by the Buildings editorial staff

Throughout the year, the *Buildings* editorial staff takes note of intriguing and innovative products and services that can help you with your development, construction, modernization, management, and operations responsibilities. After visiting with industry suppliers, experiencing many products firsthand, and culling through mounds of literature and websites, we've selected 100 products and services that are worthy of recognition.

OUTDOOR PRODUCTS

Unlike traditional concrete, Hycrete Admixture is a fully recyclable, new-generation concrete; its water-based chemical composition is waterproof, protects against corrosion in building applications, and – when demolished – can be crushed, recycled, and reused in new structures.

Hycrete Admixture by Hycrete Inc. (201-386-8110 or www.hycrete.com).

“Hycrete Admixture helps building owners shorten construction timelines and save money by eliminating manually applied membranes commonly used to waterproof concrete.”
