

Hycrete360

Comprehensive Systems Approach – design assistance, Hycrete Endure WP, site service, and warranty protection included

Reduced Risk – class leading 10-year performance-based warranty protection

Build Faster – waterproofing and corrosion protection is in the concrete

Decreased Weather Delays – if you can pour concrete, you can waterproof

Simplify Design – value engineering design review with waterproofing details

Build Green – Cradle to Cradle Gold Certified and LEED credits available

Reduction in Embodied Carbon and Material Waste – eliminate environmentally negative impacts

Membrane Free Construction – 30% savings versus installed membrane

Onsite Construction Guidance – field service team makes the difference between waterproof concrete and waterproof construction

Formerly
System W

Hycrete Endure WP

Reduced Water Absorption – 1% or lower water absorption

Simplify Design – value engineering design review with waterproofing details

Build Green – Cradle to Cradle Gold Certified and LEED credits available

Reduction in Embodied Carbon and Material Waste – eliminate environmentally negative impacts

Build Faster – waterproofing and corrosion protection is in the concrete

Membrane Free Construction – 30% savings versus installed membrane

Decreased Weather Delays – if you can pour concrete, you can waterproof

Formerly
W1000

Hycrete Endure CP

Dual Protection – hydrophobic waterproof concrete and corrosion protection

Dial in Your Protection – variable dosage rates to meet specific project exposure requirements

Outperforms High Performance Concrete (HPC) – industry leading performance versus HPC mixes that include silica fume, fly ash, slag and calcium nitrite corrosion inhibitors

Protects Steel – forms protective coating around steel reinforcement

Protects Concrete – industry leading performance level of up to 7 times reduction in water absorption

Simplify Design – value engineering review during design with details

Build Green – Cradle to Cradle Gold Certified and LEED credits available

Build Faster – electronically dosed corrosion protection
